## Construction Industry Week

### *Purpose and Goals*

- To educate and enlighten CMT students to industry standards, flow, and context.
- To create and promote consistent industry involvement and support to CMT program.
- To provide real world experience to scholastic curriculum.
- To establish and promote post-graduation involvement from alumni via program support.
- To publish and promote "OSU Construction Industry Week" as a construction institutional innovation.
- To promote and establish excitement and recognition for the competition teams.
- To raise the bar for all construction institutional programs.
- To provide better recruits and professionals in the construction industry through the use of annual industry weeks which provide industry communication and context to the education of the students.
